

# NetAXS™

## Top 10 Dealer Benefits

<b>Reduced Overall Training</b>	Simple Web pages allow fast programming and easy usability.
<b>Innovative Technology</b>	NetAXS is the only hybrid access control solution available in the industry today. It offers expandable capabilities that make it truly 'future-proof.'
<b>No Software Issues to Troubleshoot</b>	Web-based access control is the ideal solution for customers who want to manage their own access control solution but want to avoid the problems associated with managing operating systems, software upgrades, and compatibility issues.
<b>Intuitive Interface</b>	NetAXS is perfect for users who are new to access control. Simple programming and menu options are based on typical Web usability with which users are already familiar, which helps reduce the overall learning curve.
<b>IT Friendly</b>	NetAXS is IT friendly and has built-in Ethernet support that is encrypted and easy to manage.
<b>Simple Installation</b>	Enclosure option features pre-wired power and connectors that allow installers to hang it up, plug it in, and go!
<b>World Wide Security</b>	Now, customers can access and manage their system from any Internet connection—anytime, anywhere.
<b>Flexible and Expandable</b>	Customers can start with the Web. If their access control needs grow beyond the capability of the Web system, they can easily migrate to the WIN-PAK platform and expand their system further.
<b>Meet Customer Needs</b>	For customers who are looking to take advantage of Web-based access control, NetAXS offers a solution that helps reduce time spent on installation, support, and training.
<b>Increased Sales Opportunities</b>	NetAXS is fully* compatible with most existing Honeywell NS2+ and N-1000 control panels and can be easily added to most Honeywell Access systems.

\* Consult [www.honeywellaccess.com](http://www.honeywellaccess.com) for exact compatibility specifications. Not compatible with 20mA C-100-A1 interface, AEP-3 relay expanders, 10-wire matrix keypads and inputs 15 and 16.
