

# WIN-PAK® with Web Software Quick Reference Guide

## Integrated Access Control Solutions

**Best Value for Future Expansion!**

	WIN-PAK with Web Express Edition (XE)	WIN-PAK with Web Standard Edition (SE)		WIN-PAK with Web Professional Edition (PE)
	WIN-PAK Access only	WIN-PAK Access + Video	WIN-PAK Access + Video + Intrusion	WIN-PAK Access + Intrusion + Advanced Video + 5 Accounts
Customer wants to:	<ul style="list-style-type: none"> <li>Manage day-to-day access control functions from a mobile device.</li> <li>Automatically restrict unauthorized personnel from entering a facility while controlling authorized personnel</li> <li>Track: WHO can go, WHERE they can go and WHEN they can go</li> <li>Prioritized Alarm View and Floor Plan links</li> <li>Create and manage photo ID badges</li> <li>Schedule/email reports</li> <li>Email events</li> <li>Change/deactivate card based on lack of use (use it or lose it)</li> <li>Different card types: VIP, Supervisor, Standard and Limited Use (requires NetAXS)</li> <li>Elevator control</li> <li>Event scripts (command files)</li> <li>Unrestricted Number of Users/Workstations</li> <li>Unrestricted Number of Communication Servers</li> </ul>	WIN-PAK XE features, plus: <ul style="list-style-type: none"> <li>Integrate video and access system events for VIDEO verification</li> <li>Extract and save video clips</li> <li>Floor plan integration of access and video</li> </ul>	In addition to access control and video management the customer wants to: <ul style="list-style-type: none"> <li>Arm/disarm with a card read</li> <li>Require a supervisor to present a card to arm/disarm (requires NetAXS) – normal cards are not allowed entry while intrusion is armed</li> <li>Monitor intrusion events with video integration for video confirmation</li> <li>Floor plan integration of intrusion, access and video</li> <li>See the status of the intrusion systems and have basic control via the virtual keypad</li> </ul>	In addition to access control and intrusion integration, advanced video integration allows you to define each event type: <ul style="list-style-type: none"> <li>Select up to four cameras to automatically pop up per event type</li> <li>Define PTZ presets per event type</li> <li>Select instant or intensive pre-defined record rates</li> <li>Program custom record rates</li> <li>Definable go to home delay – record event for defined time and then define when the camera returns to the home position</li> <li>Define if manual PTZ is allowed during event</li> </ul>
Part Number	NC-WPX4W	NC-WPS4W	NC-WPS4VW	NC-WPP4W

### Benefits

- Fast and easy setup
- Enhanced intrusion function
- Increased system security for customers
- Greater sales opportunities for dealers
- Incremental revenue advantages – Sell a complete solution!

### Typical Applications

- Office buildings
- Day care centers
- Pharmacies
- Light industrial
- Warehouses
- Schools/universities
- Hospitals/medical offices
- Restaurants
- Convenience stores
- Retail establishments

**WIN-PAK access control software improves scalability, capability and control.**
