

WIN-PAK™ PRO 2005

Top 10 Dealer Benefits Using WIN-PAK™ PRO 2005

No Limits

WIN-PAK™ PRO 2005 offers unrestricted Accounts, Card Holders, Operators and Readers. There are no limits to the number of systems that WIN-PAK PRO 2005 can support. Have confidence that the system you start with is the system you stay with.

Multiple Accounts

WIN-PAK PRO 2005 is ideal for customers with multi-site locations. WIN-PAK PRO 2005 is a centralized head-end that provides separate account information and reporting for each location.

Limited Distribution Network

Available only to certified dealers, WIN-PAK PRO 2005 provides an exclusive advantage over the competition. Manage multiple accounts from a central station and provide support for Honeywell Access control panels from a single software.

IT Friendly

WIN-PAK PRO 2005 is designed to be simple to install in the IT world. Using standard IT terminology, interfacing with IT Directors is fast and easy. Create a network configuration using a customer's existing Ethernet system.

Common Database

WIN-PAK PRO 2005 comes standard with an MSDE database and supports an optional Microsoft SQL Server 2000 database. WIN-PAK PRO 2005 can be used with existing SQL installed databases to leverage existing investments and provide greater compatibility. MS SQL Server 2000 interfaces to ODBC databases that provide integration to payroll, time and attendance, visitor management and other systems.

Fast and Easy Setup

Quick Start Wizards reduce installation time and provide fast and easy setup of WIN-PAK PRO 2005. Wizards give the ability to perform quick installation and setup. Wizards also make it easy to configure panels and add users to the system without complicated programming.

Enhanced Video Integration

Record and Playback Video Events through WIN-PAK PRO 2005. Dynamic camera control allows pan, tilt and zoom of up to 16 cameras at a time. Enhanced digital video integration also offers Video Verification that allows a live image to be compared to a stored database image of an individual before access is granted.

WIN-PAK™ PRO 2005

Top 10 Dealer Benefits (continued)

Enterprise Performance

Enterprise level performance without the Enterprise level complexity. WIN-PAK PRO 2005 provides full-scale system management for single or multiple locations. Move system control or share resources across multiple locations simply by logging on to a system. WIN-PAK PRO 2005 offers many features for which Enterprise level customers pay thousands of dollars more.

Professional Software

WIN-PAK PRO 2005 provides professional features not found in typical software packages. WIN-PAK PRO 2005 is the perfect software for technologically advanced dealers that can utilize the features to provide strong support for their customers and reduce competition through highly specialized product offerings.

Developer's Tool

WIN-PAK PRO 2005 offers an Application Program Interface (API). The API allows other products to utilize the access control functionality provided by WIN-PAK PRO 2005 but with their own user interface providing seamless interoperability and integration for a truly customized solution.
